HELP AND ADVICE

Foot Measurement/Size Guide

To help you order footwear of the correct size & width fitting for your feet first time, please follow the simple 3 step procedure below. There is no guarantee that the first pair of shoes you try will be the perfect fit, but the measurements below will give you the perfect starting point on the journey to discover real comfort!

- FIND YOUR SHOE SIZE:** Using a tape measure or ruler, measure the distance from the back of your heel to the end of your longest toe (in mm). Use the table below to work out your UK shoe size. Remember! Measure the length of both of your feet, as most people have feet of different sizes!

UK FOOTWEAR SIZE CHART - FOOT LENGTH (mm)																				
UK SIZE	2	2½	3	3½	4	4½	5	5½	6	6½	7	7½	8	8½	9	10	11	12	13	14
FOOT LENGTH (mm)	216	220	224	228	232	236	240	244	248	252	256	260	264	268	272	280	288	296	304	312

- FIND YOUR WIDTH FITTING:** Using a soft tape measure or string, measure the circumference (in mm) around your foot at the widest point, usually where your toe joints meet your foot. Refer to the tables below to find your correct width fitting for your shoe size.

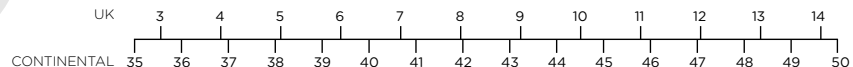

Note: Sandpiper do not produce footwear in width fittings E, EE or EEE.

LADIES FOOTWEAR WIDTH FITTINGS FOOT CIRCUMFERENCE MEASUREMENT (mm)						
EU SIZE	UK SIZE	WIDE FITTING		sandpiper		
		E	EE	EXTRA WIDE (4E-6E)	ULTRA WIDE (6E-8E)	
				4E	6E	8E
35	2½	213	219	231	243	255
36	3	216	222	234	246	258
37	4	222	228	240	252	264
38	5	228	234	246	258	270
39	6	234	240	252	264	276
40	6½	237	243	255	267	279
41	7	240	246	258	270	282
42	8	246	252	264	276	288
43	9	252	258	270	282	294

MEN'S FOOTWEAR WIDTH FITTINGS FOOT CIRCUMFERENCE MEASUREMENT (mm)					
UK SIZE	WIDE FITTING	sandpiper			
		E	EE	EXTRA WIDE (4E-6E)	
				4E	6E
6		234	240	241	264
7		240	246	247	270
8		246	252	253	276
9		252	258	259	282
10		258	264	265	288
11		264	270	271	294
12		270	276	277	300
13		276	282	283	306
14		282	288	289	312

- UK/EUR SIZE CONVERSION:** If the style you are interested in is referred to in continental sizes, please refer to the diagram below to ensure you carry out the correct size conversion.

Proudly presenting...
...our latest footwear range!

Welcome to the SS21 extra wide footwear collection from Sandpiper.

During 2020 Sandpiper was awarded the title of “Best Wide Fitting Footwear Brand” in the SME UK Enterprise Awards and we will be striving to continue living up to that title during 2021.

In our latest collection you are sure to find something soft and comfortable, allowing you to ‘discover real comfort’.

During these difficult times, please remember all of our footwear is available without VAT for anyone with a qualifying medical condition. (See page 9 for more details).

Please stay safe and take care.

Phil Stanton

WHY Sandpiper?

If you've never experienced the comfort of wearing Sandpiper shoes, it may be a little difficult to understand why they are so different to other extra wide comfort brands.

From the super soft leather uppers and linings, the deep cushioned padding, to the ultra flexible construction and the huge amount of adjustment.

Sandpiper really are the ultimate in comfort footwear that is like no other. That's why we invite you to **discover real comfort.**

On the following pages, you'll see just why our shoes are so different to anything else and how our company gives a service level that will keep you coming back for more!

"...beautifully designed for comfort, durability & good looks!"

Mrs B - Yorkshire

"The first time in years I could get my feet into boots!"

Mrs F - Dundee

"Most comfortable shoes I've purchased!"

Mrs K - Cheshire

"...because my feet are slightly different width I can adjust the shoes as required."

Ms C - Essex

"...the only shoes I wear now as I need comfort and support!"

Mrs D - Kent

LOVED BY CUSTOMERS

HELP AND ADVICE Shoe Fitting Guide

Correctly fitting shoes, are essential to ensure comfort and support for your foot. Comfortable, properly supported feet, will allow you to live a more active lifestyle, leading to better health and fitness all round. We have put together some points for you to consider when buying shoes.

- 1 Make sure you are wearing the socks or hosiery that you will be normally wearing with the footwear you are buying. To be on the safe side, you may wish to wear thicker socks when purchasing footwear to ensure you are allowing enough room for your feet.
- 2 Always try on both shoes and walk around the room. Then refasten your shoes firmly to allow your feet to properly settle into the shoe.
- 3 If the shoe slips at the heel, try pulling the foot firmly to the back of the shoe and refasten the shoes more firmly to improve the fit of the shoe on your foot.
- 4 Take care to select the correct size and fitting. Wearing shoes that are too long, just to accommodate one foot, can cause you to trip and the shoes will not be to the correct proportions of your foot. Sandpiper have styles that can be adjusted by removing the insoles, which provides extra room in the shoe for wider or swollen feet.
- 5 Sizes can vary between brands, and feet change shape as we get older, so you may find you are needing a different size to a previous pair of shoes.
- 6 Shoes should feel soft, flexible and comfortable from the first time you put them on. However, it is advisable not to wear shoes for a long period for the first time you wear them, to allow your feet to get used to them gradually.
- 7 Check that your feet are not right at the front of the shoe. After ensuring your heels are snugly at the heel of the shoe, make sure that there is a small space in the shoe in front of your longest toe.

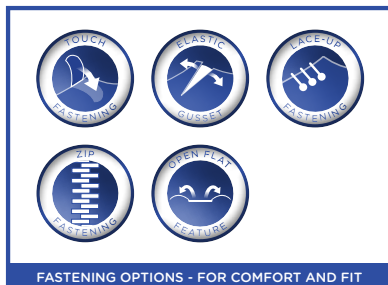

SANDPIPER INNOVATION

For further information on many of the great comfort features designed into Sandpiper footwear.

SEE PAGES 8-9 >>

INNOVATIVE Specialist Footwear Features

- 1 **Super soft leather uppers**
- 2 **Soft breathable linings**
- 3 **Snug fit heel**
Close fit heel to keep the shoe firmly on the foot, even on ultra wide fitting styles.
- 4 **Long straps for maximum adjustment**
No need for extension pieces, the styles with touch fastening have extra long straps - giving maximum adjustment.
- 5 **Padded ankle support**
- 6 **Extra wide openings**
Easy to put on and off, even with very swollen feet.
- 7 **Removable, washable insoles**
Insoles can be removed and washed at 30°C to keep your shoes looking and smelling fresh.
- 8 **3 in 1 fitting system**
Some styles have 2 removable insoles.
 - Use both insoles for maximum cushioning.
 - Remove the mid-insole for extra room.
 - Remove both insoles to use your own orthotics or for even more room.
- 9 **Deep toe box, soft toe puff**
Lots of room around the toes, with no internal seams or ridges.

- **Ultra flexible construction**
The shoes move with your foot from the first time you put them on.
- **Virtually seam free inside**
Structured support from heel-arch, to give stability when walking and only allowing the shoe to flex where the foot flexes naturally.
- **Padded tongue**
Added protection and cushioning to help sensitive or swollen feet
- **Underfoot support**

PLEASE NOTE:  **Leather is a permeable, natural material and is not waterproof.**

If you would like to *improve* the water resistance of your footwear, consider using our leather protector product. (SEE PAGE 58-59)

No Sandpiper footwear will ever be fully waterproof, even after the application of a leather protector product.

Information on claiming VAT relief

In line with the VAT Act 1994, individuals who are chronically sick or disabled can claim VAT Relief on any product that has a "VAT EXEMPT" price. According to the definition by HM Revenue & Customs a person is "chronically sick or disabled" if he or she:

- Has a physical or mental impairment that has a long-term affect on their ability to carry out everyday activities
- Has a condition that doctors treat as a chronic sickness (e.g. diabetes)
- Is terminally ill

A person with a temporary injury like a broken leg would not qualify, nor would a frail older person who is otherwise well and non-disabled. The following conditions may also qualify for VAT relief in some circumstances; Arthritis, Multiple Sclerosis, Oedema, Heart Disease, Stroke.

PLEASE NOTE: If you are unsure please ask your GP or health visitor as we are not able to give medical advice or diagnosis.

To claim VAT relief, you must complete the section of the order form entitled "Declaration for relief from VAT" or make your purchase via our website (sandpipershoes.com) and complete the declaration in the checkout section.

NOTE: IT IS AN OFFENCE TO MAKE A FALSE DECLARATION

Choosing Your Shoes

Simply by being aware of a few facts can significantly change the way you purchase shoes and can lead to being more educated in what makes a well fitting, comfortable shoe. Many foot problems in adults could have been avoided by wearing correct footwear and knowing how to select footwear that is right for you, can assist you in preventing further damage to your feet.

1 UPPER

Natural materials are highly recommended, and leather is always best for hard wearing, durable shoes. Sandpiper uses specially softened leathers, to give the perfect balance between durability and comfort.

Any footwear made from fabrics must be breathable, and where possible washable, to ensure your footwear can be kept clean and hygienic. Sandpiper slippers are made from very high quality natural and synthetic fabrics, and are fully breathable and washable to keep your feet looking and feeling great.

2 LININGS

Lining should always be breathable, and as they are the part of the shoe that is directly against the foot, should be soft, smooth and free from seams in sensitive areas.

3 HEEL

A heel design should always give you stability, and ideally should be no higher than 4cm (1½"). A heel that is higher than this will cause undue

pressure on the forepart of your foot, and if wearing a higher heel is unavoidable, should not be for more than 2-3 hours at a time.

If you have been wearing higher heels, you may find wearing a very flat shoe uncomfortable, as this may cause issues with the tendons in your leg. A slightly higher heel may be advisable in these situations, but you will soon find you can wear lower heels again after a while as your feet and legs become accustomed to it.

4 ADJUSTMENT

Always look for shoes with some kind of adjustment. This can be laces, straps or a touch fastening bar. Often, shoes have elastic gussets, to allow the shoe to 'give' and flex when walking to avoid excessive pressure on the foot.

5 ANKLE SUPPORT COLLAR

Many shoes have padded collars around the ankle, and this will provide a snug fit against the foot, and prevent the edge of the shoe from digging into your ankle.

6 SOLE

This should be cushioned, and non-slip. Many of the Sandpiper styles have dual material soles - the harder material to give support to the foot, and the softer substance to provide nonslip properties, and cushioning to the foot.

7 HEEL COUNTER

This provides support to the ankle around the heel of the shoe, and ensures the foot is kept stable in the shoe when walking. Sandpiper styles are designed with a slightly narrower heel fitting than the front of the shoe, to ensure a good snug fit around the ankle, and to stop the heel slipping when walking.

8 TOE BOX

There should be enough depth right to the front of the shoe to allow toes to move around, and to prevent rubbing. The Sandpiper range incorporates deep toe boxes into the design of the sole, so that there is

more depth on the inside of the shoe, than is apparent on the outside!

9 INSOLE

Ideally the insole should be removable, and washable to ensure you can keep your shoes fresh and clean. A removable insole allows insertion of orthotics, or specialist insoles. Many of the Sandpiper styles are designed to allow you to wear the shoes without the removable insole(s), to give extra depth and to provide precise adjustment and fit, even when one foot is a slightly different size or fitting to the other.

10 TONGUE

The tongue of the shoe where present in the design, serves to protect the the foot, from the strap or the laces. The tongue should be padded, to give maximum cushioning for the foot and this serves to allow the shoe to be fastened firmly, to ensure a snug fit against the heel, without being uncomfortable on the instep. Sandpiper shoes are known for their soft, deeply cushioned tongues.

11 HEEL COUNTER CUT-OUT

The shape of the top-line of footwear can make all the difference to the comfort and fitting of the shoe. A shaped counter top-line, can help give a snug fit, and prevent the edge of the shoe cutting into the heel when walking.

FEATURE FOCUS

3-in-1 Fitting System

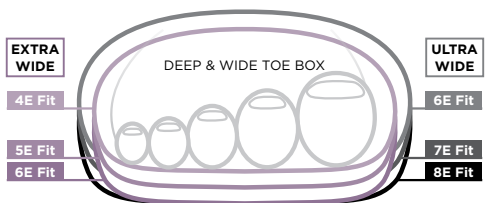

What is the Sandpiper 3-in-1 fitting system?

The innovative 3-in-1 fitting system is available as standard on all of our ladies extra wide and ultra wide shoes. Two removable insoles inside the footwear give you 3 fitting options for each foot.

What do the width fittings mean?

Standard width ladies footwear is a "D" fitting, followed by "E", "EE" etc.

Sandpiper ladies shoes are available in either **extra wide fitting (4E-6E)** or **ultra wide fitting (6E-8E)**. Each additional "E" fitting offers extra width and depth to the internal dimensions of the shoe to accommodate wider feet or custom orthotic insoles.

Carrie £84.95 VERY POPULAR

VAT RELIEF AVAILABLE (SEE PAGE 9)

without VAT **£70.79**

Another great ultra wide sandal this spring is Carrie.

Four touch fastening straps offer a secure fit all of the way up your foot, whilst allowing the sandal to open right out, making it effortless to take on and off.

A sandal with added foot protection.

- Quad strap touch fastening
- Secure fit around foot
- Extra wide opening
- Removable, washable insole
- Lightweight with support
- Padded ankle support
- Suitable for orthotics
- Ultra wide 6E fitting
- Heel height: 1 1/4" (3cm)
- Sizes: 36-43

Cara £84.95

VAT RELIEF AVAILABLE (SEE PAGE 9)

without VAT **£70.79**

A classic sandal with a triple-strap design, with extra adjustment, good ankle support and superbly soft leather.

The straps open right out, making it easy to put on and take off, whilst the cushioned footbed features an air circulating insole.

- Super soft leather
- 3 strap touch fastening
- Extra wide opening
- Lightweight construction
- Padded ankle support
- Removable, washable insole
- Suitable for orthotics
- Ultra wide 6E fitting
- Heel height: 1 1/4" (3cm)
- Sizes: 36-43

LADIES

EXTRA WIDE BOOTS

Sandpiper ladies boots are designed to give you extra width and depth, which is ideal for very wide or swollen feet.

All feature the 3-in-1 fitting system, offering two removable insoles giving three fitting options on each foot and making them suitable for accommodating custom orthotics.

The soft padding makes them perfect for diabetics and soft enough for those with common foot ailments.

STRETCHY & ACCOMMODATING

“For my elderly father’s swollen feet, the seamless inners and comfortable fitting are perfect.”

Mrs H - Bicester

Black

Travis £89.95 VERY POPULAR

VAT RELIEF AVAILABLE (SEE PAGE 9)

without VAT **£74.96**

Based on Tony, this men’s shoe features a stretchy elastane forepart, which is great for misshapen or very sensitive feet.

The elastane material prevents any rubbing or abrasion on your toes and the padded topline offers good ankle support. Rated highly for comfort and quality.

- Stretchy elastane forepart
- Small toe puff
- Touch fastening strap
- Padded ankle support
- Suitable for diabetics
- One removable insole
- Suitable for orthotics
- Slip-resistant sole
- Extra wide 4E-6E fitting
- Sizes: 6-14

Brown

Brown

Ted £93.95 VERY POPULAR

VAT RELIEF AVAILABLE (SEE PAGE 9)

without VAT **£78.29**

Open and airy like a sandal, but with a closed toe to protect the toes and good support round the heel.

An easy to fasten, easy to wear style with a touch fastening strap. Comfortable padded ankle support and a deep toe box make this perfect for diabetics.

- Protects sensitive toes
- Super soft leather
- Touch fastening strap
- Lightweight construction
- Underfoot support
- Padded ankle support
- Suitable for diabetics
- Deep and wide toe box
- Ultra wide 6E fitting
- Sizes: 39-47

Nathan £84.95 VERY POPULAR

VAT RELIEF AVAILABLE (SEE PAGE 9)

without VAT **£70.79**

Two tough, sporty-style sandals, with soft padding and a lightweight construction. Choose Nathan if you need additional ankle support with the back-in or Neil for an adjustable heel strap.

- Dual strap touch fastening
- Extra long, padded straps
- Soft leather upper

Neil £81.95

VAT RELIEF AVAILABLE (SEE PAGE 9)

without VAT **£68.29**

- Lightweight construction
- Ultra wide 6E Fitting
- Sizes: 6-12

MEN'S
EXTRA WIDE BOOTS

Sandpiper men's extra wide boots are designed for those with extra wide or swollen feet.
Featuring soft leather, extra padding, extra long straps and a deep and wide toe box these boots are designed to be accommodating and yet comfortable.

Silas £54.95

VAT RELIEF AVAILABLE (SEE PAGE 9)

without VAT **£45.79**

The stretchy elastane forepart of this style will literally stretch to the shape of your foot, without rubbing uncomfortably on sensitive toes.

Ideal for very swollen or mis-shapen feet, even when your feet may swell or change shape during the day.

- Stretchy elastane forepart
- Touch fastening
- Washable at 30°C
- Deep and wide toe box
- Seam-free toe box
- Suitable for diabetics
- One removable insole
- Slip-resistant outdoor sole
- Extra wide 4E-6E fitting
- Sizes: 6-13

Sven £54.95 VERY POPULAR

VAT RELIEF AVAILABLE (SEE PAGE 9)

without VAT **£45.79**

A deep and accommodating slipper with a stretchy elastane top surface for extra softness for the foot.

Suitable for indoor or light outdoor use, this slipper bridges the gap between slippers and shoes.

One of our customer favourites!

- Touch fastening
- Deep toe box with stretchy elastane upper
- Washable at 30°C
- Seam-free toe box
- Suitable for diabetics
- One removable insole
- Slip-resistant outdoor sole
- Extra wide 4E-6E fitting

SATISFACTION GUARANTEED

Fast delivery and efficient service

We aim to despatch your Sandpiper shoes by Royal Mail within 48 hours of receipt of your order. To enable us to be efficient, we hold large stocks of all styles, colours and sizes. If, however, customer orders are particularly high, we may occasionally run out of stock.

If this happens, we will contact you to advise you when your shoes will be available.

A no-quibble guarantee

Each pair of shoes we sell undergoes a strict quality control procedure before they get to you – and we know you'll be delighted with them. If, however, for some reason you are not completely happy with your shoes, simply send them straight back to us within 14 days in perfect, unworn condition for a 'no questions asked' replacement or refund.

Exchanges or Refunds

If you have to return your shoes for an exchange or refund, please follow the instructions on the Invoice/ Returns note that comes with your order. Returns are free using our Returns Service; simply use the FREE Returns label provided with your order, and take your shoes to a Post Office for them to be returned to us. Please allow up to 10 days for refunds or exchanges to be processed.
