Therapeutic - Diabetic - Orthopaedic
FOOTWEAR

TDO Therapy was founded in 2005 with a strong science and innovation foundation. Our footwear is specially designed and manufactured for foot health and foot problems according to norms that physicians (Podiatric-Pedorthists) and international medical authorities (CDC, Medicare).

Each of our products is unique because we know every foot are specific and different. That's why we combined traditional methods and the latest technology while manufacturing our footwear. Our products are **100% HAND-MADE** by experienced craftsmen with traditional skills. Also, we use the finest raw materials to achieve the best quality. TDO Therapy offers a wide range of styles specially developed moulds that helps to provide the extra depth and width your feet need.

We are dedicated to supporting the active movement and improving the quality of life. Also, we are proud to say that our footwear helps the treatment process in every stage of diabetic and orthopaedic foot problems. That's why TDO refers to "Therapeutic for T- Diabetic for D and Orthopaedic for O" footwear that gives THERAPY to your feet.

Comfort is Yours!

3^{TRIPLE} LAYER PROTECTION

This advanced technology is designed to provide the best protection to your feet. The special nano-technologic foam between the leather and seamless line provides ultra comfort by making the footwear softer.

What does this technology offer you?

Patented 3 layered shoe-upper of TDO Therapy shoes are manufactured from **soft and top-quality calf leather** inside out. The central layer is composed of **nano-technological anti-bacterial foam**.

Foot Temperature

Triple Layer Technology helps regulate foot temperature, keeping the feet both cool and dry.

Adaptation

It helps to adapt to physiological changes (swelling, edema) of feet during the day.

Protective

The smart foam makes the footwear more protective against external impacts.

Softness

The footwear is softer with smart foam between the leather and lining so it protects the foot against all kinds of impacts.

TDO THERAPY FOR FOOT PROBLEMS

Specially developed for sensitive feet and other physical ailments affected by foot problems, TDO Therapy Shoes provide the ultimate comfort and protection for your feet. If you have a certain foot condition, TDO Therapy is ready to extend the life of your troubled feet and treat your sore feet with its carefully designed range of shoes.

Enjoy your life freely without thinking about your painful feet!

DIABETIC FOOT HEALTH

3.9 million people are currently living with a diagnosis of diabetes, and 90% of those with type 2. In addition, there are almost a million more people living with type 2 diabetes who don't know they have it because they haven't been diagnosed yet, bringing the total number up to more than 4.8 million.

Diabetes can cause nerve damage and poor circulation that can be dangerous to your feet. Wearing the combination of the best technology, material, and craftsmanship top-quality diabetic footwear can help reduce the diabetic problems on your feet.

- | | | |
|--|--|---|
|  Diabetic Neuropathy |  Diabetic Foot Injuries |  Morton's Neuroma in Diabetic Feet |
|  Lesions on Diabetic Skin |  Diabetic Circulatory Abnormalities |  Foot Temperature Disorder |
|  Callus on Diabetic Foot |  Diabetic Sareo Foot Syndrom |  Diabetic Ingrown Toenail |

TDO Therapy footwear can be called the "Diabetic Shoe", thanks to its protection and rehabilitation properties.

What Diabetic Solutions Does TDO Therapy Offer?

Extra Wide & Deep

Perfect fit for different kinds of feet with a variety of shoe moulds that are **extra wider and deeper**.

Easy Access

Velcro fastener for comfort, support, and a great fit. **Adjustable straps** are good for easy wearing.

Anatomic Removable Insoles

All our products have anatomical insoles which provide **the greatest arch support**. Insoles can be removed to accommodate your own orthotics.
